WARNINGS:

In case of edible crops, cease application 7 days before harvest. Contents poisonous if ingested. Keep out of reach of children, uninformed persons and animals. Keep away from food and feedstuffs.

Although the remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be effected by factors such as abnormal soil, climatic conditions and storage conditions; compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned as well as by the method, time and accuracy of the application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal for lack of performance of the remedy concerned due to the failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS:

- Wash hands with soap and water after handling.
- Avoid prolonged skin contact, and inhalation of dust.
- Store in a dry place.
- Destroy empty container, do not re-use for any other purpose.

IMPORTANT: This product may be harmful to children and fatal to domestic animals if ingested. Children and dogs may be attracted to methaldehyde containing products and their packaging. Keep children and pets out of treated areas from the start of application until the applied product is no longer visible.

DIRECTIONS FOR USE: Use only as directed.

Sprinkle small heaps of pellets on the ground around plants and places such as rockeries where snails and slug infestations occur. If possible, apply during warm damp evenings, after rainfall or watering when snails and slugs are most active.
