

PREMIUM ORGANIC GROWING MEDIUM

Direction for use

Insert one Protek Coco Peat inside a pot or container. Add 5 litres of water and wait 15 to 20 minutes for the brick to fully absorb the water and expand to a volume of 9 litres.

KEY FEATURES

- Excellent aeration and water retention.
- Suitable for all types of crops.
- Ideal for indoor and outdoor plants.
- Helps to improve the soil.
- 100% organic compacted substrate.
- Friendly growing medium for plants.
- Fertilization is recommended.

BENEFITS

- High retention of water, nutrients and air.
- Coconut substrate contains organic compounds.
- Protects the plant from diseases and strengthens its roots.
- Increase its volume up to 10 times in water.
- The bricks are easy to handle and store.
